

**API**

DEVELOPMENT  
CONSULTANTS INC.  
ARCHITECTURE & PLANNING INITIATIVES

WE COLLABORATE. WE COMMIT. WE CREATE!

*10 Year Anniversary*

## API HAS GROWN AND SO HAVE OUR PROJECTS!

**API DEVELOPMENT CONSULTANTS INC.** was formed in 2010 with the vision of becoming the Hospitality Sector's leader in Planning, Design, and Development of hotels throughout Canada.

Today we have completed over 40 hotels. Still going strong with over 62 projects in the pipeline, our hotel experience has fostered many other projects in residential, retirement and commercial development.

API offers fully integrated project delivery and management services from concept to occupancy. Our experienced

team members provide creative solutions from in-depth analysis of existing conditions on site design, municipal approvals, landscaping, building design, hotel branding to client requirements, interior design, and construction.

We work with our clients.  
We guide. We advise. We deliver.

Our services are delivered in 5 primary phases: Site Analysis and Master Planning, Concept Design, Brand Development, Construction Document co-ordination and Project Management.

The API TEAM and senior staff have over 400 years of combined experience in innovative design, planning & management of residential/mixed use projects, retirement & medical facilities and of course various hospitality developments.

Our TEAM has the unique ability to assist clients very early on, including the ability to assist with property pre-purchase review, analysis, financial feasibilities & masterplan development potential – All services our clients find invaluable in today's development planning markets!

**WE COLLABORATE. WE COMMIT. WE CREATE!**

Our **TEAM** provides a multi-talented and experienced foundation in the studio and on the construction site. Our firm of 35 talented members provide client's exceptional service and attention to detail.

Every team member brings reliable expertise to the project and its development process with their comprehensive knowledge and a diverse and creative approach supervised by our senior staff.
